

In reviewing Winston Bryant's record, it is clear that one of the most important things you can do to protect Arkansas' environment is keep Winston Bryant as Attorney General.

Bryant's accomplishments as Attorney General have obviously been beneficial to our state's environment and citizens; however, they have not been well-received by the state's wealthy and most powerful interests. Winston Bryant has angered those interests by forcing them to obey the law, and now these powerful forces want an opponent in the Attorney General's race.

Your help is needed to fight the big-money polluters in this race. By making a contribution of \$25, \$50, \$100, or more today, you can help keep Winston Bryant in the Attorney General's office, fighting the big polluters and protecting Arkansas' environment.

Winston Bryant has a proven track record and can be counted upon to continue his fight for a cleaner Arkansas. **Your contribution is an investment in our state's environmental future.**

By mailing your check today, you can help keep Winston Bryant in the Attorney General's office, continuing his fight to protect our state and our citizens. It's a small price to pay to protect your environment and your future.

Dear Friend of the Environment,

In 1990 while running for the office of Attorney General, I made a pledge to make environmental protection a top priority. I have kept that pledge by establishing an environmental section and hiring two environmental attorneys.

The environmental section has been both active and successful in the past three years. Working through the section, I filed lawsuits to stop clear-cutting in the Ozark and Ouachita National Forests, stopped the construction of medical waste incinerators and the importation of solid and radioactive wastes into Arkansas, and recovered several million dollars in fines and penalties from polluters.

I have kept my promise to protect Arkansas' environment in my first term as Attorney General, and look forward to building on that record in the next term.

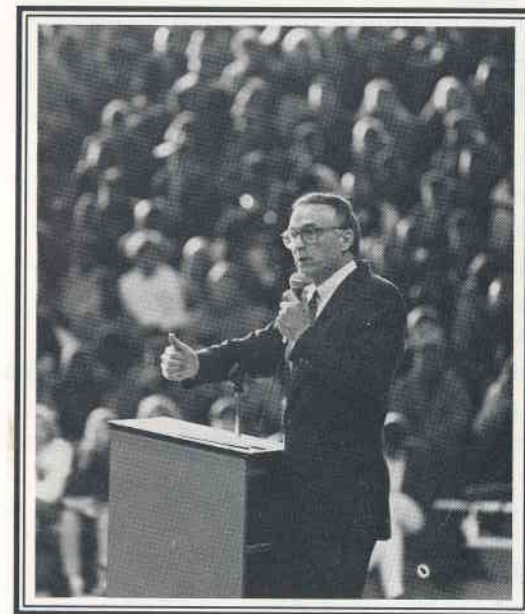

However, the big-money interests are unhappy with my record of cracking down on polluters, and they want a candidate to oppose me in the Attorney General's race. You can bet that candidate will be well-funded by the special interests.

I will need your help to win re-election. I hope I can count on you for a modest contribution of \$25, \$50, \$100 or more to help finance my re-election campaign so that I can continue my work on behalf of Arkansas' environment.

Sincerely,

Winston Bryant
Attorney General

P.S. You have my pledge that I will continue to make environmental protection a top priority, and you know you can count on me to keep that pledge.

Winston Bryant
Friend of the Environment

**WINSTON
BRYANT ATTORNEY
General**

While many areas of the country are fighting a losing environmental battle, Arkansas' environmental future is more secure than it was three years ago.

Arkansas has successfully thwarted efforts by other states and big polluters to turn our state into a dumping ground for solid and toxic wastes. The catalyst for our state's successful fight against pollution is Arkansas Attorney General Winston Bryant. Winston Bryant promised to be the environmental Attorney General. He has kept his promise by, among other things, establishing an Environmental Section in the Attorney General's office and hiring two environmental attorneys.

Winston Bryant's Environmental Accomplishments:

- Filed suits to prevent clear-cutting in the Ouachita and Ozark National Forests.
- Stopped the construction of 3 commercial medical waste incinerators in the state; currently, the section is working to halt construction of a fourth commercial medical waste incinerator.
- Sued the U.S. Department of Energy and Martin-Marietta to prevent the importation of radioactive wastes into Arkansas.
- Closed a landfill in southeast Arkansas which was accepting waste from New York City.
- Sued the U.S. Environmental Protection Agency to force completion of the proper studies before beginning an incineration project in Texarkana.
- Lowered the allowable limit for ammonia discharge into Lake Catherine.

But that's not all

Bryant sends back train load of yankee garbage.

Winston Bryant has made polluters pay

- In the Vertac case, Winston Bryant recovered \$2.5 million, the largest environmental settlement in Arkansas history.
- Winston Bryant also filed suit against 14 solid waste dump sites and assessed \$70,000 in penalties; 6 of those sites have now been reclaimed.
- Winston Bryant sued the Circle K Corporation and recovered \$158,000, which went into the state's underground storage tank clean-up fund.

**DEAR WINSTON,
THANKS FOR STANDING UP FOR THE ISSUES I CARE ABOUT! YOU CAN COUNT ON
MY SUPPORT!**

Enclosed is my check, payable to the Winston Bryant Campaign Committee, for:

() \$250 () \$100 () \$50 () \$25 () Other \$ _____

Arkansas Campaign Finance law requires the following information for all contributions over \$100:

Name _____
Street Address _____
City _____ State _____ Zip _____
Telephone _____ (h) _____ (o) _____
Occupation _____
Please make checks payable to the Winston Bryant Campaign Committee. Contributions may not exceed \$1,000.
PAID FOR BY THE WINSTON BRYANT CAMPAIGN COMMITTEE, P.O. BOX 34083, LITTLE ROCK, AR 72203, 376-VOTE
